Apple Media Services: Account VAT History

December 2020

File name Account VAT History.csv

File description This file contains detailed history of the VAT ID on customer invoices associated with the user's account.

Why Apple keeps this information Apple retains this information in order to allow customers to be able to manually submit invoices to tax authorities, where applicable, to get a VAT refund.

Field Name	Details
Apple ID Number	User account identifying number
Country	Country associated with the user's account
Tax ID	Tax ID provided by the customer (if applicable)
Status Changed Date	Date and time at which the user's country last was changed
